

REMARKS

This Supplemental Amendment is in addition to the two preliminary amendments filed on August 31, 2006. The specification is being amended to correct obvious typographical issues. Claims 1, 3, 4, 12-16, 18, 20, 26-28, 30-33, 36-39, 45, 46, 48, 49, 52, 54, 58, 61, 62, 64, 65, 68-74, 80-82, 84, 86, 88 are being amended, and new claims 90-98 are being added. The claims amendments and the new claims are supported throughout the present specification and by the originally filed claims.

Claims 1, 3, 45, 52, 54, and 82 have been amended to change the term "for wetting and foaming..." to "for foaming..." These amendments do not narrow the scope of the claim.

Claims 1, 45, and 52 have been amended so that they no longer recite the formula $(-(R_2Si-O)_n-)$. The amendments do not narrow the scope of the claims.

Claims 1, 4, 18, 27, 30, 31, 33, 36-39, 45, 48, 49, 52, 64, 65, 68-74, 80, and 82 have been amended to clarify that certain recited percentages are by weight. The amendments do not narrow the scope of the claims.

Claim 84 is being amended to correct a readily apparent typographical issue in chemical formulas. For instance, in the partial formula $--CH_2CH_2(OAc)CH_2--$, the CH_2 should be CH , since the carbon atom has a valence of four. The amendment does not narrow the scope of the claim.

Claims 4, 26, 46, 58, and 61 are being amended to add parentheses around the chemical name "3-(3-Hydroxypropyl)-heptamethyltrisiloxane, ethoxylated, acetate", for clarification. The amendments do not narrow the scope of the claims.

Claims 12-16 have been amended to remove recitations of the intended use of the composition. The amendments do not narrow the scope of the claims.

Claims 30, 48, 65 and 80 has been amended to change the term "palmiate" to "palmate". The amendments do not narrow the scope of the claims.

Claims 37 and 69 have been amended to change the chemical term "diammonium" to the proper term "ammonium". The amendments do not narrow the scope of the claims.

Claims 28, 30 and 62 are amended to clarify the Markush language (such as by breaking up the paragraph). Claim 62 is also amended to recite "quaternary ammonium compounds." Claims 30, 64 and 80 are amended to delete the second occurrence of "cetyl alcohol". The amendments do not narrow the scope of the claims.

Claims 45, 52 and 80 have been amended to add a recitation of "lipid layer enhancers."

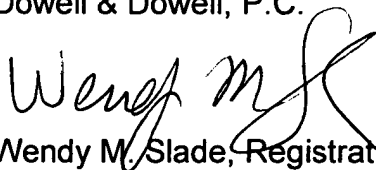

Claims 20, 80 and 86 have been amended to correct inadvertent clerical and typographical errors. Claims 30, 32, 45, 48, 80, 88 have also been amended in various ways for clarification of those claims.

It is respectfully submitted that all the amendments made herein are to more clearly and succinctly recite the invention and to correct defects in the application. These amendments are fully supported by the application as originally filed, and therefore no new matter has been added by the amendments.

Respectfully submitted,

Dowell & Dowell, P.C.
